

FOR IMMEDIATE RELEASE

PDC Machines & KPCL Enter Agreement for Hydrogen Compression in India

Souderton, PA – PDC Machines, a global supplier of diaphragm compression systems and hydrogen compressors for hydrogen refueling stations, has entered into an agreement with Kirloskar Pneumatic Company Limited (KPCL), prominent in the air, refrigeration and gas compression business in India, to offer diaphragm compressors for various industries and applications throughout India.

The agreement was executed in response to emerging hydrogen compression opportunities in India, where focus has been shifting steadily towards hydrogen for its decarbonization potential. Major government investment in green hydrogen is expected to continue in India through the rest of this decade.

Under the new agreement with KPCL, PDC has a dedicated partner to support the local Indian market.

With the agreement, PDC amplifies its reach in Asia by leveraging KPCL's existing wide customer base. KPCL extends its product portfolio to offer PDC diaphragm compression technology, industry-renowned for its reliability and robust performance. KPCL will also have access to PDC's leading aftermarket services team to provide customers with expert support, both remotely and in the field.

"We are thrilled to partner with KPCL, a company with an esteemed reputation and established trust in the market," said Kareem Afzal, Executive Chairman for PDC Machines, "this collaboration will position both KPCL and PDC to support India's hydrogen ambitions at a critical juncture for the emerging industry."

In addition to serving the hydrogen industry, PDC & KPCL will continue to support industrial & specialty gas applications in the region.

About PDC Machines

PDC Machines is a leading provider of diaphragm compression systems and hydrogen refueling solutions for alternative energy and power to gas applications. With over 40 years of experience, PDC Machines is committed to providing innovative, high-quality compression solutions that meet the unique needs of its customers. PDC compressors are the preferred choice for applications requiring contamination-free and leak-tight compression. PDC has installed over 2,000 compressors globally, including 1,400+ installations in hydrogen energy applications. The company's global customer base includes businesses in the chemical, petrochemical, energy, and renewable energy industries, among others.

About Kirloskar Pneumatic Company Limited (KPCL)

Founded in 1958, Kirloskar Pneumatic Company Limited (KPCL) is one of the core Kirloskar group companies. As such, it espouses all the values that come with being part of a rich 130-year legacy in manufacturing and industrial innovation. With a product range that includes Air Compressors, Air Conditioning and Refrigeration Systems, Process Gas Systems, Vapour Absorption Systems and Industrial Gear Boxes. KPCL serves a variety of sectors like Oil, Gas, Steel, Cement, Food and Beverage, Railways, Defense and Marine.
